Mike

Hi there! Starting today, I will be the one guiding you along your journey! Please tell me preferred name, pronouns, and date of birth.

Hey Mike. It's John Smith. You can call me John. I go by he/him and my date of birth is July 31, 2001.

Give me some more background information which will be the key to optimizing your wellness. What's your height, weight, gender, weekly budget, dietary restrictions and weight?

For sure, I'm about 174cm tall and 190 lbs. I identify as a male. As for weekly budget, is it simply the budget for training only, or does it also include groceries and meal plans too?

That would be your weekly budget for both fitness and meal plans.

If that's the case, I'd say my weekly budget is about \$300 a month.

Sweet - Now I'd like to get to know your goals. I will eventually develop a routine or schedule for you to review once we set up your profile.

I am fairly new to fitness and am unsure where to start, so I cannot define my fitness goals in detail for now. What I do know is that I would like to improve my overall physical health by being more active, as I spend the majority of my time in office. I'd like to also ensure a healthy diet so that I don't gain any more weight.

Perfect! Now I'd like you to review your updated profile. Click into my next text once you are ready to view.

← Workout Inquiry

July, 14, 2024

Hi Mike, can you give me a workout routine that targets my upper body

Great goal! Here's a sample upper body workout routine for beginners:

1. Push-ups: 3 sets of 10-15 reps
2. Dumbbell Bench Press: 3 sets of 10-12 reps
3. Bent-over Rows: 3 sets of 10-12 reps
4. Shoulder Press: 3 sets of 10-12 reps
5. Bicep Curls: 3 sets of 12-15 reps
6. Tricep Dips: 3 sets of 10-12 reps

How often should I do this routine?

Aim to do this workout 2-3 times a week, with at least one day of rest in between sessions to allow your muscles to recover

Okay, sounds good!

Meal Plan Advice

July, 14, 2024

could you give me some healthy lunch ideas for next week using the groceries You recommended yesterday ?

Of course, here are some suggestions!

1. Mason jar Salads
2. Turkey and Veggie Stir-Fry
3. Grilled Chicken and Veggies

Those sound good! Any tips on how I can keep the food fresh?

Sure! Keep your meals in airtight containers and store them in the fridge. For salads, keep the dressing separate until you're ready to eat. You can also freeze some meals if you're prepping for more than a few days.

Great!

Should I make this?

Yummy! This recipe calls for ground beef. Try using lean ground beef to reach your protein goal for the day!

Great!
